

SPECIALITY TOOLS

- No matter what the job, it is dangerous to use a tool that does not fit correctly – you can seriously injure yourself, damage the tool and the work
- Always use the correct tool for the job
- Know your tools and their correct use
- Regularly maintain tools
- When you have finished with a tool, put it away in its storage container

**JBS RECOMMENDS THE USE OF APPROPRIATE P.P.E.
& CORRECT LIFTING PROCEDURES**

(P.P.E. - Personal Protective Equipment)
